Disorder EP

The new year starts off with a nice release by our man from Georgia – Eke! His last EP 'Hospital' already received great feedback and we think that his newest tracks on the 'Disorder' EP are just as good! He simply got a feeling for pushing minimal techno, which reflects in his own tracks and DJ sets! No need for leads or complex melodies, just lots of bass, clicks and snaps, wrapped into dark textures or funky bleeps. This young talent is very productive, so you can expect more of him being released very soon!
