## 30 Something EP

We are proud to present you our latest release from DJ Lab – one of Copenhagen's top DJ's! Because of the great competitiveness in his city, Anders Brøndum, aka DJ Lab has built a high standard of quality for his sets and proves technical skills in his own productions which he already put out on labels such as 'Echocord' or 'Tic Tac Toe'.

The '30 Something EP' is packed with 3 beautiful dub tracks starting off with 'Libra' which was the favorite track of all of us including Sean O'Neil (Someone Else) on this EP, followed by 'Spookers Dub' which is indeed a little spooky, but really unique and funky. The last track called 'Third Shift' is very hypnotic and is more club oriented than the other tracks. All in all a great EP for everyone who is into minimal and dub!

## DJ Lab

Lab's style took off as straight up banging minimalism but has developed considerably over the years. Today, his arsenal ranges from Detroit techno over trancey Cologne'ism to minimal house and dub. As long as it's quality, it's playable. From 1998-2000 he was a regular name in the Roskilde festival lineup. Playing for thousands and thousands of ravers at one of Europe's largest music festivals.

By 2000 his credentials had brought him a monthly residence on the national radio of Denmark. From 2004 and onwards, he's upheld a residence at Copenhagen's largest club 'Vega'. And since its opening in January 2005, internationally respected electronic club 'Culture Box' has put lab on the lineup numerous times. Lab has signed his first release with well known Danish label 'Echocord'. And more is on the way, by the man himself or in collaboration with several others of Denmark's finest producers. Watch out. He's only getting better and better.
